

Maschine mit Biegsamer Welle
Flexible shaft
Machines à arbre flexible

ROTOfera

- Gear driven machine with 7 speeds – saves on energy and costs
- Long life and maximum performance with 1,00 kW three phase motor
- Versatile multipurpose machine, supported with the full range of Suhner quality accessories
- Solid aluminium housing for troublefree industrial use
- Choice of 3 models:
F: with base plate
HM: with hanging attachment
STM: trolley mounted

Applications

Cutting, roughing, grinding, milling, descaling, brushing and polishing, for demanding jobs in mechanical workshops, for metalworking, pattern and toolmaking, processing stainless steel (food processing and hospital equipment).
