

Application Success Story

Title: Sealing For Electrocar Electromotor Cover Application with PGM6cc & WM

Application Description

The application is gasket sealing for electrocar's motor cover with silicone material. The valve is fixed mounted and robot pick the cover to move under the nozzle.

Application/Product Photo

Main Challenge Solved

Need uniform bead with consistent flow.

Material Information

Manufacture: ThreeBond

Product name: 1217H

Temperature: 40°C

Approx Viscosity: 200000 CPS

Equipment Selection

Main Equipment: PGM/WM

Part Number: PG0121 /256250

Applicator: EnDure Valve

Accessories: 115877/115876 HEAT HOSE

Graco Sales Person: Frank Ren

City/Country of Application: Guangzhou China

Date: 2013/10/28

电动汽车电机端盖密封

PGM + Warmmelt+ Heated Hose
