Product description

Self-sharpening ceramic grain abrasive belt with high initial aggressiveness and a cool cut thanks to the additional TOP SIZE grinding-active layer. More densely coated compared to XK870X, for high contact pressure applications and for machining aluminium or steel. Ideal for rough applications such as bevelling.

Benefits

- > Self-sharpening effect results in an extremely high stock removal rate thanks to constant recreation of sharp grain points
- > Cool grinding and extension of service lives with VSM TOP SIZE grinding-inducing additional layer
- > High wear resistance
- > Optimised price-performance ratio
